[Ken Miller on Science Friday and Colbert Report](#) [3]

NCSE Supporter Kenneth R. Miller will appear June 13, 2008, on the second hour of the nationally broadcast NPR program [Science Friday](#) [4] to discuss his new book, *Only a Theory: Evolution and the Battle for America's Soul*, of which Michael Ruse writes, "Ken Miller's new book, *Only a Theory*, is everything we have come to expect from him -- informed, witty, and above all deeply serious about matters of concern to us all. He takes so-called intelligent design theory apart, piece by piece, showing it for the sham that it is. In its stead, Miller makes a very strong argument for the truth and beauty of evolutionary thinking and begs that we not keep this wonderful science from our children." Check local listings for the station in your area. Also, Miller will appear on Comedy Central's [The Colbert Report](#) [5] on June 16, 2008.
