["Creationism and the Law"](#) [3]

Looking for the legal skinny on the court cases that shaped the landscape of the creationism/evolution controversy? NCSE's new [Creationism and the Law](#) [4] resource provides the details on seventeen key cases, from *Scopes* to *Selman*, that made a difference. Simply click on the name of a case to get a thorough summary; a list of source documents (typically PDFs, arranged in chronological order); and to relevant NCSE news stories, timelines, and presentations; and a selection of links to third-party sources. This new NCSE resource is free and aimed at journalists, lawyers, school administrators, school boards, and anyone interested in the legal history of evolution, creationism, and public school science education.
