## [RNCSE 36:2 now on-line](#) [3]

NCSE is pleased to announce that the latest issue of *Reports of the National Center for Science Education* is now available on-line. The issue — volume 36, number 2 — is the second issue in the newsletter's new, streamlined, and full-color format.

Featured are "Taking the Temperature of Climate Change Education," Josh Rosenau's report on the NCSE/Penn State survey of science teachers; "A Science Center with No Science," Randy Moore's discussion of a creationist "museum" in Akron, Ohio; news about NCSE's Science Booster Club project from Emily Schoerning; and a review of two books about junk DNA by Georgi Marinov.

The entire issue is freely available in PDF form from <http://reports.ncse.com> [4]. Members of NCSE will have already received the issue in the mail, and will be receiving the next issue of *Reports* in June 2016. (Not a member? [Join](#) [5] today!)
