[A glimpse of Teaching Evolution in a Creation Nation](#) [3]

NCSE is pleased to offer a free [preview](#) [4] (PDF) of Adam Laats and Harvey Siegel's [Teaching Evolution in a Creation Nation](#) [5] (University of Chicago Press, 2016). The preview consists of chapter 3, "The Dog That Didn't Bark," which discusses "the long period between roughly 1930 and 1960 in which the issue [of evolution education] disappeared from the nation's headlines. However, people hadn't stopped caring about it."

"What do you get when you cross a historian and a philosopher? If it's Laats and Siegel, the answer is *Teaching Evolution in a Creation Nation*. Thoughtful and provocative, historically detailed and philosophically informed, this book is a must for anyone interested in understanding the conflict over evolution education in the United States," wrote NCSE's deputy director Glenn Branch.
