## [RNCSE 38:1 now on-line](#) [3]

NCSE is pleased to announce that the latest issue of *Reports of the National Center for Science Education* is now available on-line. The issue — volume 38, number 1 — is the ninth issue in the newsletter's new, streamlined, and full-color format.

Featured are Glenn Branch's account of the recent controversy over New Mexico's science standards; Randy Moore's discussion of Ark Encounter; Brad Hoge's discussion of the importance of project-based learning in science education; Emily Schoerning's report on the ongoing national expansion of NCSE's Science Booster Club program; and John Abraham's review of the film *An Inconvenient Sequel*.

The entire issue is freely available in PDF form from <http://reports.ncse.com> [4]. Members of NCSE will be receiving it in printed form shortly. (Not a member? [Join](#) [5] today!)
